**A Special Message to Wayne County Employers from
Robert Fitzpatrick, Owner, Culver's of Westland**

Dear Small Business Owner:

Once again, Wayne County Four Star Health has offered me a chance to mention some of the benefits that this health care program has brought to my business, Culver's of Westland.

After three years of using Four Star, it continues to benefit me and my staff - and I want to share those experiences with others that could qualify for Wayne County Four Star Health. From the first time that one of my employees showed tears of relief and joy in her eyes - knowing that her illness was covered by a program that we could afford - I knew that Wayne County Four Star was not like any other area health program.

The costs are shared three ways - between me - my employees - and Four Star - in equal parts. I personally think that the coverage offered is a great value.

In the challenging economy we all face, this coverage continues to affect my bottom line. I believe my employee turnover is lower than most businesses of this type - and my employees miss less work - both because they are healthier - and they value their job more.

I once again recommend you do yourself and your employees a favor and look over the enclosed materials - and then see if you can qualify. It has helped my business.

And if you are in Westland anytime soon - stop in for a tasty meal. Culver's serves quality, fresh food in a clean, friendly, quick-service family atmosphere.
And we still give out free smiles all day.

Sincerely,

A handwritten signature in black ink that reads "Robert".

Robert Fitzpatrick
Owner
